	Total	\$292.00	\$269.00	\$175.00	\$94.00

Total provider charges	\$292.00
Total allowed amount	\$269.00
Total plan payment	\$175.00
Patient/other responsibility*	\$94.00

How to read this sample

Provider Charges are what the provider billed. Allowed Charges are the amounts recognized for payment. Plan Paid is the Medicare average payment shown in CMS public data. The EOB-style remaining amount is shown as Patient/other responsibility for demonstration purposes.

***Important:** CMS provider lookup data reports average submitted charge, average Medicare allowed amount, and average Medicare payment. It does not provide the individual beneficiary's deductible, copay, coinsurance, supplemental insurance, or final patient balance for these averaged records. Therefore the last column is calculated here only as *allowed amount minus Medicare payment* to support the dashboard demo; it should not be presented as an actual patient's legal amount due.

CMS data source used for the five services: Medicare Physician & Other Practitioner Look-up Tool, Ophthalmology provider Timothy Young (NPI 1962403071), Nacogdoches, Texas. The patient name, plan, claim number, date, and provider name in this EOB are synthetic.

CMS EOB guidance: an Explanation of Benefits summarizes the claim, allowed charges, insurer payment, and what the member may owe; it is not itself a bill.
